

NORTH  POINT

the building

London's first modern loft condominium project, North Point offers 51 residences ranging from 1100 to 1980 sq. ft. Standing four stories and perched on the heights of the city, North Point demonstrates attention to detail on both sides of the welcome mat.

While innovative open-concept design conjures a sense of spaciousness and freedom, superior execution and the use of premium materials convey timeless craftsmanship and quality in every nuance.

From standard offerings, such as energy-efficient, floor-to-ceiling windows and expansive outdoor areas, to secured underground parking and access, North Point provides the latest in both architectural and technological advances to suit both you and your lifestyle.

**not just a place to live...
it's a way to live**

Open-concept lofts with 10 - 12 foot ceilings, full-height windows and generous outdoor living areas incorporate clean lines and premium materials to marry interior and exterior space in a way that blurs the distinction between you, your home and the horizon beyond.
